

Online Professional College Certificate in Family Nutrition

Dear Interested Student:

Thank you for your interest in the Professional Certificate in Family Nutrition Program. Please read below for more information on the structure of the program, courses, benefits, and registration information.

Certificate Benefits:

The Online Professional Certificate in Family Nutrition has been designed to provide guidance for adults in role modeling healthy food choices and exercise behaviors for their children. The legacy of overweight and obesity will take a toll on the America of tomorrow in terms of health care costs, the strength of the nation's work force, and the happiness and well-being of tomorrow's citizens. The certificate will also examine the numerous influences that an expecting mother's food choices, the food choices of the family and friends, and the children's own food attitudes and behaviors can impact weight and health.

Parents, teachers, allied health/medical and fitness professionals, school administrators, caregivers, and virtually all of those who work with children in school, day care, or in after-school programs can benefit from this certificate, as it provides concrete actions that adults can take in place of simply watching this problem unfold. Benefits of the Online Professional Certificate in Family Nutrition program:

1. Guidance, instruction, and interaction from instructors that hold either a **Master's** or **Ph.D.** degree in exercise science, biomechanics, exercise physiology, kinesiology, physical therapy, nutrition or an exercise science-related degree. Our instructors will support their students and become valuable resources and mentors well after they graduate.
2. Obtain a professional college certificate from an accredited institution.
3. College courses provide CECs or CEUs for personal trainers, group fitness instructors, physical therapists, athletic trainers, exercise physiologists, chiropractors, and for those fitness and health professionals seeking re-certification, re-licensure, or career advancement.
4. Networking opportunities with industry experts, medical professionals, professors, researchers, and business leaders in the industry
5. This program is endorsed by the **National Posture Institute (NPI)**. Students that graduate from this program will receive a 20% discount for the **NPI Certified Posture Specialist (CPS)™ Program**. The CPS™ program provides students with the tools needed to develop a unique career pathway and expand their business opportunities. This is accomplished by learning a structured process to assess and correct posture and body alignment & by incorporating this knowledge into a successful business model that is structured to help expand one's client/patient base. Students will learn the following NPI business tools: how to market/brand yourself as a CPS™, how to attract new and retain current clientele, how to utilize a referral program to your utmost advantage, and how to create new business opportunities utilizing professional partnerships. This program is for personal trainers/fitness professionals, group exercise instructors, physical therapists, athletic trainers, chiropractors, and sports performance coaches.
6. The program is offered in partnership with **SuperKids Nutrition**. They have provided content/curriculum for the program.

Continuing Education Credits

The following National Organizations/Associations have approved the Family Nutrition program/courses for Continuing Education Credits/Units (CECs/CEUs):

- National Posture Institute (NPI) / 5 CECs
- American College of Sports Medicine (ACSM) / 10 CECs
- American Senior Fitness Association (SFA) / 2.0 CEUs
- National Council on Strength and Fitness (NCSF) / 10 CECs
- State of Illinois - Advanced Practice Nurse CE Sponsor / 10 CECs

This Certificate is designed for:

- Allied health, medical, and fitness professionals, personal trainers, and Registered Dietitians seeking advanced nutrition education, re-certification, re-licensure, or career advancement.
- Parents, teachers, caregivers and individuals from the public and consumers interested in ways to improve a child's nutritional habits and wellness.

Certificate Program Structure:

- The program is comprised of 2 required core courses (Courses below) Students may complete the program in as little as 8 weeks or have up to two-years.
- The certificate program is designed for students to take 2 courses at a time in 8 weeks.
- It is Not Required to take courses in any order
- REGISTRATION: Courses are OPEN ENROLLMENT, meaning you can register and begin at any time.
- Students may elect to take courses individually if desired .
- You should be able to commit 5 to 10 hours per week to each course in which you enroll. That is a total of 50 hours on average per each course.
- You are graded on each course based on how well you do on special projects, quizzes, problem-solving questions, exams, written reports, and exercises that require reading the text(s), articles, lecture presentations, internet research, and then going online to complete assignments.
- Complete and receive a passing grade of (70 or C- and above) in all courses to graduate with the Professional Certificate in Family Nutrition.
- There is not a specific class meeting time. Classes or weekly sessions are available upon registration and courses are open 24 hours a day and 7 days a week for you to login into your class any time of the day that is convenient for you to complete assignments.
- There are no prerequisites required to enter the program.
- Courses available all year round. Once logged in, students are provided with 8 weeks of access to complete the course(s) they registered for.

The following are the two core courses:**Program Curriculum**

Course 1: Healthy Moms and Infant Nutrition

Course 2: Healthy Children Nutrition: At the Home, Work and External Environments

Demonstration Course:

For an Online Demo, [Click Here](#).

Award of the Certificates:

1. Professional Certificate in Family Nutrition: complete all two core courses within a period of two years
2. Complete and receive a passing grade of (70 or C- and above) in all courses to graduate with the certificate(s): which includes quizzes, exams, written/research projects, and class assignments

Why Online Learning?

- Learning occurs in a user-friendly environment and is accessible to participants with little or no computer experience.
- Online courses give you the knowledge and tools you need to stay ahead in today's rapidly changing professional marketplace.
- Online Education allows students to access their courses from anywhere there is an internet connection even if you are traveling on business or on vacation.
- Flexibility: Students can attend class in the comfort and convenience of their own home, office, library, or internet café and complete assignments after breakfast, during lunch, late at night, or any time that is convenient for the student.
- Cost-effective: expenses related to facilities, travel and non-productive time is reduced.

Frequently Asked Questions (FAQ):

What is an online course or online certificate program?

An Online course is a class offered over the Internet. The amount of work required of the student and the learning goals are no different than regular face-to-face classes. Students interact with each other and the teacher by email, phone, and through class discussion forums.

Our goal is to make online learning not only convenient but a compelling learning experience. We want students engaged in the online material beyond just reading. We've incorporated projects, quizzes, problem-solving questions, exams, written reports, and exercises that require reading the text, articles, lecture presentations, and then going online to complete assignments. We also hope to try to incorporate adult learning theory objectives, keeping in mind that people learn in different ways (i.e., listening, seeing, and doing.) We think, as a result, our courses are interesting and more effective.

Are there any textbook requirements and what are the costs?

Yes, there are textbooks required per each course. When you register for a course(s), instructions for ordering textbooks or course materials either online or through a toll free number will be provided.

What are the technological requirements for participating?

In addition to a confident level of computer literacy, certain technical requirements must be met to enable a successful experience. Technical requirements include but are not limited to having internet access with a 56K modem, but it is highly recommended that you have **DSL or High Speed Cable Internet Access**; 64 MB system RAM; 200 MB free hard disk space memory or sufficient storage; Internet access with Netscape 4.0 or better or MS Explorer 4.0 or better, reliable email account access, CD-ROM/DVD capabilities, and a reliable Internet provider. Some individual courses may have additional software and/or hardware requirements.

NECESSARY SKILLS

- Knowledge of Windows or Mac OS
- Ability to use web browser, email and internet

When do classes meet?

There is not a specific class meeting time. Individual courses are 8 weeks in length. Course sessions are available for access upon receiving the login/access information. Courses are open 24 hours a day and 7 days a week for you to login into your class any time of the day that is convenient for you to complete assignments.

Is an Online course the right choice?

If you agree with these statements, online courses may be for you!

- I am comfortable with using my computer for email, internet, and word processing
- I have access to a computer most of the time
- I have reliable high-speed internet connection
- I have good time management skills

How much time will you spend per week on this course?

Most of our courses require about 5 or 10 hours per week of effort on your part. To stay on track with completing within the 8 week allotted per course timeline, you can expect to log into the online classroom early in the week when the weekly session is released and spend 45 minutes to an hour online with the new material. Then, log in 4 or 5 more times per week for 30 minutes or so to keep up with the class discussions questions, projects, quizzes, written assignments, coffee house hours, and/or exams.

Student Testimonials

Read below for what our past students have to say about our Online Nutrition Courses:

"Because of powerpoint presentations, voice audios, and ability to have questions answered whether or not I participated in coffee house forums, this course provided the atmosphere of a traditional setting. It adequately met my needs as a student" **Andrea I. Georgia, Nutrition and You: Functional Foods**

"I absolutely loved the Weight Management class. The course content was informative and up to date and the teacher is an expert in this field. You also get quick responses to all your questions and can manage it even with a fulltime work schedule. I would recommend it to anyone who is looking to enhance their knowledge of Nutrition and Weight Management". **Lisa G. California, Weight Management and Nutrition in the Lifecycle**

"The course exceeded my expectations. I appreciated the up-to-date academic references, broad spectrum of topics, and ideas from the instructor's personal life on how to improve diet. Surprisingly I learned more online than I had expected. The instructor calls attention to specific students' work and by the middle of the course the personalities come out. The instructor's passion and enthusiasm for the subject matter are exuded in the lectures, slides, and emails. I need flexibility with my schedule so this is perfect. The lecture and slide content provides the touch and feel of a class and the slides contain references if I want to dig deeper. Excellent!"

Clare N. Louisiana, Nutrition and You: Functional Foods
